Deadline for manuscript  
submissions:

**closed (29 February 2020)**

### Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue is to gather both reviews and research articles unraveling the mechanisms that underlie adipocyte differentiation as well as adipokines production and function to identify the major contributor(s) of obesity and lipid metabolism-related diseases, while works covering new insights on fundamental aspects of hormonal control of adipose tissue metabolism are also desirable.

### Keywords

- adipogenesis
- adipocytes
- white adipose tissue
- adipokines
- lipid metabolism
- oxidative stress
- obesity
- lipodistrophy
- metabolic syndrome
- comparative endocrinology

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maurizio Battino

Department of  
Odontostomatologic and  
Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of  
Medicine, Università Politecnica  
delle Marche, Via Ranieri 65,  
60100 Ancona, Italy

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
