closed (31 October 2019)

Message from the Guest Editor

Dear Colleagues,

Biological systems can be defined from cells through plants and animals. These systems can respond to a variety of stimuli or environmental conditions. The protein and molecular responses can be measured by a variety of methods, often using mass spectrometry. Of particular interest are quantitative expression profiling (proteins or metabolites), response-associated post-translational modifications, and pathway analysis.

Dr. C. Michael Greenlief

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
