Message from the Collection Editor

Dear Colleagues,

This Topical Collection “Feature Papers in Molecular Microbiology” aims to collect high-quality research articles, short communications, and review articles in the molecular biology of microbes with a focus on prokaryotes (bacteria and archaea) and eukaryotic microorganisms. Since the aim of this Topical Collection is to illustrate, through selected works, frontier research in molecular microbiology, we encourage Editorial Board Members of the Molecular Microbiology Section of the *International Journal of Molecular Sciences* to contribute papers reflecting the latest progress in their research field or to invite relevant experts and colleagues to do so.
