Deadline for manuscript  
submissions:

**closed (30 November 2022)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue is a follow-up of the last "Host-Microbe Interaction" Special Issue. Here, we would like to introduce the multiscale and dynamic nature of ecosystems. Therefore, we envisage a focus on the multitrophic microbial interactions of diverse biological outcomes (pathogenesis, mutualism, etc.) with hosts of pluricellular or unicellular nature. The concept of the microbiome will be pursued and scientific contributions on microbial interactions of importance in ecology (habitat conservation and human impact), agro-food (food security), medicine, and industrial activities are all welcome. All original or review articles should include hard data on the role of molecules (-omics) in these multitrophic interactions. We also encourage work on sequencing technologies and bioinformatics applied to the study of microbe interactomics. The role of new developments in microbe interactions in system biology is also a key issue.

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
