Deadline for manuscript
submissions:
1 November 2018

Message from the Guest Editors

Dear Colleagues,

We are pleased to invite you to submit your extended paper presented at IEEE SEGE conference to this Special Issue, which aims at providing an opportunity to present and discuss various engineering challenges of smart energy grid design and operation by focusing on advanced methods and practices for designing different components and their integration within the grid. It also provides a forum for researchers from academia and professionals from industry, as well as government regulators to present solutions to these challenges, and discuss and exchange knowledge and best practices about design and implementation.

Prof. Prasanta K. Ghosh
Prof. Ehab El-Saadany
Prof. Hossam A. Gabbar

Australia

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by Ei Compendex, Scopus (Elsevier), Emerging Sources Citation Index (ESCI - Web of Science) and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 20 days after submission; acceptance to publication is undertaken in 4.29 days (median values for papers published in the first six months of 2018).
