Information Extraction and Language Discourse Processing

Guest Editors:

Dr. Jennifer D'Souza
TIB–Leibniz Information Centre for Science and Technology, 30167 Hannover, Germany

Prof. Dr. Chengzhi Zhang
Professor, School of Economics and Management, Nanjing University of Science and Technology (NJUST), No. 200, Xiaolingwei, 210094 Nanjing, China

Deadline for manuscript submissions:
31 January 2025

Message from the Guest Editors

The Special Issue "Information Extraction and Language Discourse Processing" has been EXTENDED!

Topics of interest include (but are not limited to):

- Knowledge base population with discourse-centric information extraction (IE)
- Coreference resolution and its impact on discourse-centric IE
- Relationship extraction leveraging linguistic discourse
- Template filling
- Impact of pragmatics or rhetorics on information extraction
- Discourse-centric IE at scale
- Intelligent and novel assessment models of discourse-centric IE
- Survey of discourse-centric IE in natural language processing (NLP)
- Challenges implementing discourse-centric IE in real-world scenarios
- Modeling domains using discourse-centric IE
- Human–AI hybrid systems for learning discourse and IE
- Application of discourse-centric IE

Special Issue

Editor-in-Chief

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.
Journal Rank: CiteScore - Q2 (*Information Systems*)
