Water Infrastructure Asset Management

Guest Editors:

Dr. Assela Pathirana

Mr. Frank Den Heijer

Dr. Eur Ing. Paul B Sayers

Deadline for manuscript submissions:

closed (31 December 2019)

Message from the Guest Editors

We encourage you to consider the opportunity for water infrastructure asset managers in addressing these challenges and welcome papers that aspects a broad range of topics, including:

- Data management: Asset inventories, innovation data collation methods and uncertainty handling, data value
- Asset condition assessment and deterioration modelling
- 3. Asset failure modes and reliability analysis.
- 4. Risk-based planning and optimisation of renewal programming.
- Asset adaptation and life cycle management (managing uncertainty, climate change, funding, changing demands and requirements, scenario analysis, societal cost benefit approaches, system optimization and planning);
- 6. Life time extension approaches: repair and renovation techniques, design, probabilistic modelling and maintenance optimization.
- 7. Software tools for addressing different aspects of asset management (e.g., optimization, life-cycle costing)
- 8. Innovations in (Higher) Education and training in AM for water infrastructure

Editor-in-Chief

Dr. Pedro Arias-Sánchez

Applied Geotechnologies Group, Department of Natural Resources and Environmental Engineering, School of Mining Engineering, University of Vigo, 36310 Vigo, Spain

Message from the Editor-in-Chief

You are invited to contribute a research article, review or short communication for consideration and publication in *Infrastructures* (ISSN 2412-3811). There is no restriction on the length of the papers. *Infrastructures* is published in open access format. The scientific community and general public have unlimited free access to the content as soon as it is published. *Infrastructures* is supported by the authors by the payment of article processing charges for accepted manuscripts. Please consider *Infrastructures* as an exceptional opportunity to publish your work.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec,

and other databases.

Journal Rank: CiteScore - Q2 (Building and Construction)
