

## An Open Access Journal

### Editor-in-Chief

Prof. Dr. Brian T. Forschler

### Message from the Editor-in-Chief

Hexapods are a diverse and abundant group of animals that are important to a variety of research dictates. For example, hexapods act as bio-indicators of ecosystem function and pest status and serve as model systems for questions concerning physiology, embryology, genetics, and social interaction. The editorial board and staff at *Insects* is committed to providing contributors an open access forum to showcase objective and innovative research as well as succinct review articles. Our journal is dedicated to providing timely and thorough review of qualified submissions and we welcome you to submit a contribution.

### Author Benefits

#### Open Access

Unlimited and free access for readers

#### No Copyright Constraints

Retain copyright of your work and free use of your article

#### Thorough Peer-Review

#### Coverage by Leading Indexing Services

PubMed (NLM), Scopus (Elsevier), Zoological Record (Thomson Reuters)

#### No Space Constraints, No Extra Space or Color Charges

No restriction on the length of the papers, number of figures or colors

#### Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI membership program

## More Information about This Journal

### Aims and Scope

*Insects* (ISSN 2075-4450) is an international, peer-reviewed open access journal of entomology published by MDPI online quarterly. The journal publishes reviews, research papers, and communications related to the biology, physiology, and behavior of insects and arthropods.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers.

The scope of *Insects* includes:

- Basic and applied entomology
- Biology, physiology, and ecology of insects
- Insect classification / taxonomy
- Reproduction and development of insects
- Evolution of insects
- Insects and public health
- Insects and environment
- Insects and plants
- Pest management
