Deadline for manuscript
submissions:

10 July 2024

Message from the Guest Editor

Dear Colleagues,

This is a formal invitation to be part of a new Special Issue of the *Journal of Clinical Medicine*. The title is self-explanatory: “Atrial Arrhythmias: Diagnosis, Management and Future Opportunities”. Due to the technological advancements in diagnostic tools and better clinical knowledge of pathophysiology, we are rethinking old concepts and facing new topics every single day. The consolidation and widespread use of newer and more advanced mapping as well as ablation technologies of atrial arrhythmias have substantially contributed to the growing interest in this field.

Among the several topics of interest, we would like to focus on the mapping and ablation of atrial arrhythmias, particularly focusing on post-AF ablation atrial arrhythmias’ mapping and ablation aspects.

Therefore, the aim of this Special Issue is to provide *JCM* readers with an update on the pathophysiology, diagnosis, and treatment of atrial arrhythmias.

Keywords: atrial fibrillation ablation; atrial tachycardia; atrial flutter; redo; repeat ablation; 3D mapping; mapping technologies and techniques

an Open Access Journal by MDPI

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
