Deadline for manuscript
submissions:

20 June 2024

Message from the Guest Editor

Recently, the field of breast reconstruction has undergone tremendous technological and innovative advances, expanding surgical treatment options and improving patient outcomes. As the field has advanced, various surgical techniques (such as robotic breast surgery, lymphatic reconstruction using super-microsurgery, direct-to-implant reconstruction, multiple free-flap reconstruction, and breast sensation restoration) have emerged to elevate the care received by breast cancer patients. In this Special Issue, titled “Current Research Trends and Updates in Breast Reconstruction”, we seek to provide insights into the latest research trends and advancements in this area and to present innovative breast reconstruction findings from world-renowned experts in the field.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
