Traumatology, University of
Catania, 95124 Catania, Italy

Deadline for manuscript
submissions:

30 November 2024

Message from the Guest Editor

Dear Colleagues,

It is my pleasure to present this Special Issue on the diagnosis, treatment, and rehabilitation of osteoporosis, a very common pathology, which contributes to frailty in the elderly. Osteoporosis has various clinical features, which vary from a simple osteopenia to a more complex presentation, as fragility fractures. The purpose of this Special Issue is to provide an update on modern diagnostic and therapeutic approaches to osteoporosis, collecting original articles and systematic or narrative reviews on this multidisciplinary pathology and providing experience on diagnostic techniques, diet and drugs, and conservative and surgical treatment of the main fragility fractures.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
