Message from the Guest Editors

Dear Colleagues,

Cerebrovascular diseases are a group of conditions that affect blood flow and the blood vessels in the brain. These can be caused by different kind of alterations, including atherosclerosis, thrombosis, embolisms. We can categorize these diseases as stroke, transient ischemic attack (TIA), aneurysm, and vascular malformation. Arteries are most commonly involved, but veins can also be affected by these kinds of diseases.

The aim of this Special Issue is to collate papers presenting new evidence and novelties about cerebrovascular disease, both for arterial diseases and especially for the less commonly reported venous diseases affecting the brain.

Deadline for manuscript
submissions:

30 August 2024

an Open Access Journal by MDPI

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
