

Recent Advances in Audio-Vestibular Medicine

Guest Editors:

Dr. Eugen C. Ionescu

Dr. Pierre Bertholon

Prof. Dr. Hung Thai-Van

Deadline for manuscript
submissions:

27 November 2024

Message from the Guest Editors

This special issue aims to encourage doctors, researchers and students in the field of Audiology and Vestibulology to publish original articles and review articles in this field which has seen such rapid development lately. Therefore, apart from the classic topics regarding the etiological diagnosis of congenital or acquired hearing deficits and their treatment all research subjects dealing with vestibular system damage associated or not with hearing loss will also be welcomed for submission. Aware that hearing and balance disorders, isolated or associated with each other, are still in our times a source of depression, anxiety of various degrees frequently leading to social self-isolation, we hope that through this special issue we can facilitate and encourage clinical and fundamental research for a progress not only in the better understanding of these complex pathologies, but also to improve the ability of specialists to treat them.

Keywords

- neurosensorial or conductive hearing loss
- presbycusis
- presbyvestibulia
- vestibular impairment
- bilateral vestibulopathy
- auditory & vestibular rehabilitation
- cochlear implantation
- vestibular implantation

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
