submissions:

25 June 2024

Message from the Guest Editor

Dear Colleagues,

The field of endoscopy has revolutionized the diagnosis and treatment of gastrointestinal (GI) diseases in recent years. Besides ‘traditional’ endoscopic procedures, advances in imaging technology have allowed GI specialists to detect and manage disorders throughout the digestive system. Likewise, gastrointestinal surgery has similarly progressed to include better preoperative evaluations, improved surgical techniques, and postoperative treatment regimens.

High-quality research in the field of gastrointestinal endoscopy and surgery is highly relevant and needed. For this Special Issue, we are interested in publishing articles focusing on all aspects of gastrointestinal endoscopy and surgery including but not limited to general endoscopy, advanced procedures such as endoscopic retrograde cholangiopancreatography (ERCP), endoscopic ultrasound (EUS), deep enteroscopy, chromoendoscopy, and videocapsule endoscopy, to name a few. Likewise, research advancing gastrointestinal surgery including minimally invasive surgery would be a welcome addition to this Special Issue.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
