Cardiology Unit, "Buon Consiglio  
Hospital" Fatebenefratelli,  
Naples, Italy

Deadline for manuscript  
submissions:

**25 August 2024**

### Message from the Guest Editors

Heart failure (HF) is a pandemic of the third millennium, accounting for high rates of mortality and hospitalizations. For this reason, an improved approach to HF is required. The introduction of new treatments strategies, such as guanylate cyclase stimulators and myosin activators, is opening up new possibilities for HF patients to avoid adverse events. Moreover, the results of recent SGLT2i trials have opened up new treatment possibilities for HF patients with preserved ejection fraction. Besides pharmacological treatment, interesting results have been observed regarding cardiac contractility modulation (CCM) in patients with refractory symptoms, reducing the number of HF and CV deaths. Moreover, the COVID era showed the potential of telemedicine in HF.

This Special Issue will focus on new challenges in heart failure management. Original articles, reviews of the current literature, and original perspectives on this topic will be taken into account. The Special Issue will focus on diagnostic, prognostic, and therapeutic innovations with the aim of sharing clinical experiences to improve HF patients' management.

of Tokyo, Tokyo 113-8655, Japan

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
