Message from the Collection Editor

Dear Colleagues

Cardiovascular diseases and, especially, coronary artery disease (CAD) remain a leading cause of death worldwide. Throughout the past few decades, dramatic improvements in noninvasive diagnostic modalities as well as medical and interventional treatments for patients with coronary artery disease have occurred.

I am excited to serve as the Guest Editor for a Special Issue of the *Journal of Clinical Medicine* dedicated to Current Clinical Treatments and Challenges for CAD. We would like to invite state-of-the-art reviews, as well as original research, in this area to be considered for inclusion in this issue. Such manuscripts could focus on the prevention of CAD (particularly, new treatments for risk factors), novel risk factors, the diagnosis of CAD (advanced coronary imaging), the interventional treatment of CAD (percutaneous and surgical, multivessel disease, and complex coronary interventions), medical therapy postintervention (antiplatelet/anticoagulation), risk stratification, and more.

Prof. Arthur Shiyovich

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
