Deadline for manuscript
submissions:

25 June 2024

Message from the Guest Editor

Cardiac imaging is one of the cornerstones in the management of all cardiovascular diseases, critical in their evaluation, prognostication, and surveillance. Multi-modality cardiac imaging encompasses all the techniques of echocardiography, cardiac computed tomography (CT), cardiac magnetic resonance imaging (MRI), and nuclear imaging. Rapid advances in all of these modalities over the last two decades have vastly improved diagnostic capabilities, treatment guidance, and ultimately patient outcomes. The aim of this Special Issue is to highlight contemporary advances and clinical applications of cardiac imaging for the management of a variety of cardiac conditions. We look forward to receiving your contributions.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
