Message from the Guest Editor

Dear Colleagues,

It was a pleasure to collaborate as a Guest Editor in the Special Issue of the *Journal of Clinical Medicine*, entitled “Clinical Management of Perioperative Brain Health”, which was published in 2021 and contained 6 feature papers

(https://www.mdpi.com/journal/jcm/special_issues/Perioperative)

Our goal now is to launch a second edition of the Special Issue, entitled “Clinical Management of Brain Health in Anesthesiology and Intensive Care Medicine”, which will cover a broad spectrum of problems related to the diagnosis, treatment and prognosis of brain health.

This Special Issue seeks to publish comprehensive high-quality manuscripts on clinical management of perioperative brain health in patients undergoing cardiac and noncardiac surgery, as well as in the critically ill. We welcome original research papers, systematic reviews, meta-analyses, and thorough reviews on this interesting topic. We hope that this Special Issue will provide up-to-date data that anesthesiologists and intensive care specialists worldwide can use to improve perioperative brain health techniques.
