Message from the Guest Editors

Dear Colleagues,

"Targeted Treatment of Pancreatic Cancer" is a comprehensive Special Issue focusing on the latest advancements and research in the field of tailored therapies for pancreatic cancer. This Issue brings together cutting-edge studies, clinical trials, and breakthroughs aimed at developing targeted treatment approaches to improve patient outcomes and enhance the understanding of this challenging disease. With a particular emphasis on precision medicine, this Special Issue seeks to provide valuable insights into personalized therapies that hold the potential to revolutionize the management of pancreatic cancer. Please note that mini-reviews or case reports will not be published in this Special Issue. We seek original research articles, reviews, and perspectives that showcase innovative techniques and strategies related to the treatment of pancreatic cancer.
