Message from the Guest Editors

Dear Colleagues,

This special volume is dedicated to [RMIT Vietnam Digital3 Conference](#). In this Special Issue on “digital economies”, we invite novel research on blockchain, artificial intelligence (AI), virtual/augmented reality (VR/AR), and the Internet of Things (IoT). We welcome submissions from scholars and practitioners from diverse settings and contexts, and encourage papers that explore the role of cross-regional cooperation, knowledge-sharing, and digital and innovation economics in emerging markets.

We welcome both theoretical and/or empirical studies on themes like (but not limited to) digital finance, innovations in the digital economy, digital change management, digital governance and law, digital business, sustainability in a digital world, and other similar topics, crypto-economics, generative AI, fintech, Web3, smart cities and digital transformation, digital identity and privacy, cybersecurity and digital trust, digital health and wellbeing, and digital innovation and entrepreneurship.
