Analysis and Evaluation of Terrestrial Ecosystems in the Mediterranean, Temperate and Tropical Climates

Guest Editors:

Dr. Eusebio Cano Carmona

Department of Animal and Plant Biology and Ecology, Section of Botany, University of Jaén, Campus Las Lagunillas s/n., 23071 Jaén, Spain

Dr. Ana Cano-Ortíz

Department of Didactics of Experimental, Social and Mathematical Sciences, Complutense University of Madrid, 28040 Madrid, Spain

Deadline for manuscript submissions:

30 June 2024

Message from the Guest Editors

The goal of this Special Issue is to collect papers (original research articles and review papers) to provide insights about the current situation of Earth. In essence, the fundamental objective is to analyze and value the terrestrial ecosystems present in the Mediterranean, temperate, and tropical climates, as well as the state of conservation and the impact of climate change on them.

This Special Issue will welcome manuscripts that link the following themes:

All articles related to Earth Sciences, such as Natural Sciences, Botany, Ecology, Pascology, Vegetation, Phytosociology, Plant Dynamics, Conservation of Flora and Fauna, EU Habitats, and the great biomes of Earth, with special mention to the tropics. Additionally, all those investigations that contribute new knowledge for the training of environmental managers, with those studies that deepen the knowledge of the natural environment and allow for the resolution of sociocultural and socioeconomic problems also being important.

Editor-in-Chief

Prof. Dr. Christine Fürst

Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend Land for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
