### Message from the Guest Editors

The purpose of this Special Issue is to invite academics and researchers to submit proposals for papers that deal with the sustainable management of natural, agricultural, and urban land. Potential topics include, but are not limited to:

- evaluation methods and techniques to support choices in land planning;
- criteria and indicators for sustainability in land planning processes;
- strategies for enhancing the relationship between urban areas and agricultural and/or natural areas;
- innovative models for the environmental remediation of compromised areas;
- innovative tools for land planning and management;
- the protection, management, and safeguarding of natural areas;
- strategies for the transformation of degraded urban areas;
- sustainable agriculture.
