Message from the Guest Editors

Dear Colleagues,

In this special issue, we brought together 10 articles that demonstrate the diverse range of processes and landscapes that ABMs are currently used to examine, including: land-use decision making in agricultural landscapes; soil erosion in semi-arid environments; forest change in mountainous landscapes; trade in 1st Century BC southern France; social adaptations of herders in northern Mongolia; and malaria epidemiology in Kenya.

Dr. James D.A. Millington
