an Open Access Journal by MDPI

# **Space Radiobiology**

Guest Editors:

#### Dr. Giorgio Russo

Institute of Molecular Bioimaging and Physiology (IBFM), National Research Council (CNR), 90015 Cefalù (PA), Italy

#### Dr. Walter Tinganelli

Biophysics Division, GSI Helmholtz Center for Heavy Ion Research, 64291 Darmstadt, Germany

#### Dr. Marco Calvaruso

National Research Council (CNR), Institute of Bioimaging and Molecular Physiology (IBFM), Cefalù, PA, Italy

Deadline for manuscript submissions:

closed (15 March 2022)

# **Message from the Guest Editors**

From the beginning of mankind, humans have always wondered about the outer space above and its conquer. In the last 50 years, space biology has enriched the basic knowledge about the effects of space-radiation exposure and gravity unloading. However, the majority of studies are aimed at the protection of astronauts flying in the low earth orbit (LEO), and they are based on a yet few numbers of data collected from real space flight conditions or simulated ones. Future studies should not only be aimed at the prevention of health problems in space, but also at the management and resolution of pathological issues that may occur in an altered gravitational environment. To note that, health risks both comprise the ones deriving from a long-term radiation and microgravity exposure (cancer, immunological and neurological impairments, infections, muscle and bone loss, etc), together with the ones associated to isolation and confinement conditions (psychological problems). On the other side, outputs coming from space biology research may be useful to ameliorate human life on earth.

## **Editor-in-Chief**

## Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

# **Message from the Editor-in-Chief**

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Biology) / CiteScore - Q2 (Paleontology)
