Dear Colleagues,

On behalf of the Evaluation Committee, I am pleased to announce the winner of *Lubricants* Travel Award —Osborne Reynolds Travel Award 2018.

This award was bestowed upon Romain Lhermerout, a Postdoctoral researcher in Professor Susan Perkin's group at University of Oxford, whose research focuses on the electrostatic interactions and friction across ionic liquids confined in a molecular scale. He is planning to present his work "External and Reversible Control of Friction Across Nanofilms" at the Molecular Mechanisms in Tribology Symposium in Potsdam, Germany.

This award contributes **600 Swiss Francs** towards attending this conference.

This was a difficult decision; high-quality applications were made for this award, and we would like to thank all the applicants for submitting their diverse and thought-provoking presentations. We congratulate Dr. Lhermerout for his accomplishment.

Prof. Dr. Homer Rahnejat
Editor-in-Chief, *Lubricants*
