Materials for Additive Manufacturing Processes

Guest Editor:

Dr. Alberta Aversa

Department of Applied Science and Technology, Politecnico di Torino, Corso Duca degli Abruzzi 24, 10129 Torino, Italy

Deadline for manuscript submissions: **10 June 2024**

Message from the Guest Editor

Dear Colleagues,

Research related to additive manufacturing (AM) is rapidly evolving, both in terms of processes and materials. In particular, many papers have been published about processing existing materials, as well as introducing completely new materials specifically designed for additive technologies. These studies have demonstrated that AM processes introduce many possibilities to develop new materials with specific properties.

This Special Issue aims to publish results in the field of materials processed by AM, with special attention on material consolidation, microstructure, and properties.

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The iournal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites. advanced materials characterization, porous materials, manufacturing processes and svstems. advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials. materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. Materials provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
