Message from the Guest Editors

Dear Colleagues,

In Poland, the development of materials engineering as the independent branch of science dates back to the late 1960s. Since then, there has been a dynamic development of these research centres, which resulted in their wide specialization. Their scientific achievements are very extensive and valuable. Therefore, it is especially important to present and summarize more than fifty years of materials research and materials science in Poland. In this Special Issue, we will focus and will be interested in receiving manuscript contributions in one or more of the following areas:

- Metallic materials and their alloys;
- Surface engineering;
- Ceramics;
- Polymers;
- Nanomaterials;
- Amorphous materials;
- Manufacturing processes;
- Advances in materials characterization.

Kind regards,

Prof. Dr. Tomasz Tański
Dr. Przemyslaw Snopinski

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
