Message from the Guest Editor

Dear Colleagues,

Please accept this invitation to submit a manuscript for a special issue of Materials entitled “Advances in Biomaterials”. This special issue will provide the community with the opportunity to present the latest fundamental and applied biomaterials research to the broader materials community. Materials publishes manuscripts which advance the in-depth understanding of the relationship between the structure, the properties or the functions of all kinds of materials and covers all aspects of biomaterials research. This special issue will facilitate interactions between the biomaterials community and the broader materials communities.

Prof. Dr. Heather Sheardown
Guest Editor

Author Benefits

Open Access: free for readers, with publishing fees paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), EI Compendex and other databases. For more information on the journal’s Impact Factor, see here.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 22 days after submission; acceptance to publication is undertaken in 7 days (median values for papers published in this journal in 2016).
