Message from the Guest Editors

Dear Colleagues,

The 15th International Conference of the Metabolomics Society is the official meeting of the Metabolomics Society and the largest international metabolomics conference worldwide. It brings together all the major international organizations involved in metabolomics, with topics including metabolite identification, metabolic desease, food science, plant and microbial biology, environment science and toxicology, as well as all the new developoments in analytical technologies and bioinformatics and data processing.

For this Special Issue, we particularly, but not exclusively, welcome papers presented at or resulting from this conference, with a focus on any topic relevant to metabolomic science.

We look forward to reading your papers!

Best regards

Assoc. Prof. Oliver A.H. Jones Dr. Horst Joachim Schirra *Guest Editors*

Notes: Attendees of the 15th International Conference of the Metabolomics Society can enjoy a 20% discount on the Article Processing Charge when their extended conference papers are accepted for publication in Metabolites, after peer review by external experts. Please specify this benefit in the cover letter.

Dr. Amedeo Lonardo

 Formerly Director of the Simple Operating Unit "Metabolic Syndrome", Azienda
Ospedaliero-Universitaria, 41126 Modena, Italy
Formerly Professor of Internal Medicine, School of
Specialization of Allergology and Clinical Immunology, University of Modena and Reggio Emilia, 41121 Modena, Italy

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies shown utility for elucidating have mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biochemistry & Molecular Biology*) / CiteScore - Q2 (*Endocrinology, Diabetes and Metabolism*)
