Dear Colleagues,

This Special Issue will collect selected and contributed talks presented during the Australian and New Zealand Metabolomics Conference (ANZMET 2017) peer sessions held during the Metabolomics 2017 conference (13th Annual Conference of the Metabolomics Society) in Brisbane, Queensland, Australia from 25 June until 29 June 2017. Website: www.anzmet.org

Message from the Editor-in-Chief

The metabolome is the result of the combined effects of genetic and environmental influences on metabolic processes. Metabolomic studies can provide a global view of metabolism and thereby improve our understanding of the underlying biology. Advances in metabolomic technologies have shown utility for elucidating mechanisms which underlie fundamental biological processes including disease pathology. *Metabolites* is proud to be part of the development of metabolomics and we look forward to working with many of you to publish high quality metabolomic studies.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: Indexed in the Emerging Sources Citation Index (ESCI) - Web of Science, EMBASE (Elsevier) and Scopus. Citations available in PubMed, full-text archived in PubMed Central.

CiteScore 2017 (Scopus): **3.35**, which equals rank 47/209 (Q1) in the category 'Endocrinology, Diabetes and Metabolism', 103/398 (Q2) in 'Biochemistry' and 127/367 (Q2) in 'Molecular Biology'.
