Deadline for manuscript
submissions:

closed (31 October 2022)

Message from the Guest Editors

Dear Colleagues,

There is a rapidly increasing need for advanced composites with targeted properties, and many scientific and industrial efforts are still being conducted to advance this field. Ranging from automotive to biomedical structures, composite materials have a wide variety of applications. Composite in particular is of special importance due to the magnitude of composite production in the world, which makes it a critical material.

We are pleased to invite you to submit a manuscript to this Special Issue, titled “Recent Developments in Composite Science and Technology”, which is dedicated to the latest scientific discoveries in the field of composite materials. All short communications, reviews and research type manuscripts will be considered, and approaches including theoretical, numerical, and experimental investigations are welcome.

Milwaukee, 3200 N. Cramer
Street, Milwaukee, WI 53211, USA

Prof. Dr. Yong Zhang

Beijing Advanced Innovation
Center of Materials Genome
Engineering, State Key
Laboratory for Advanced Metals
and Materials, University of
Science and Technology Beijing,
30 Xueyuan Road, Beijing 100083,
China

Message from the Editorial Board

Metallic materials play a vital role in the economic life of modern societies; contributions are sought on fresh developments that enhance our understanding of the fundamental aspects related to the relationships between processing, properties and microstructure – disciplines in the metallurgical field ranging from processing, mechanical behavior, phase transitions and microstructural evolution, nanostructures, as well as unique metallic properties – inspire general and scholarly interest among the scientific community.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **SCIE (Web of Science)**, **Inspec**, **CAPLUS / SciFinder**, and **other databases**.

Journal Rank: JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q1 (*Metals and Alloys*)
