

## Advances in Brucella

Guest Editor:

**Prof. Dr. Angel Oñate**

Departamento de Microbiología,  
Facultad de Ciencias Biológicas,  
Universidad de Concepción,  
Concepción 4070386, Chile

Deadline for manuscript  
submissions:

**31 July 2024**

### Message from the Guest Editor

*Brucella*, which is a Gram-negative bacterium with a high infective capacity and a wide spectrum of potential hosts in the animal world, is found in both terrestrial and marine mammals, as well as in amphibians. Brucellosis, which is caused by the facultative intracellular bacteria of the *Brucella* species, is one the most globally prevalent examples of a zoonosis.

For this Special Issue, we invite authors to submit research articles, review articles, and written publications that cover any aspect of the *Brucella* species' relevance to the fields of bacteriology, epidemiology, molecular biology, genomics, and biofilms. Publications that cover diagnostics, pathogenesis, vaccine research, or surveillance measures related to Brucellosis are also welcome. We look forward to receiving your contribution.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
