Molecular Medicine, University of
Rome, 00189 Rome, Italy

Deadline for manuscript
submissions:

closed (30 September 2020)

Message from the Guest Editor

Dear Colleagues,

We invite submissions to a Special Issue on the topic
“Microbial and Autoimmune Disease”.

Main topics will include the followings, but are not limited:

1. Microbiota and autoimmune disease,
2. Infections in patients with autoimmune disease,
3. Infections mimicking autoimmune disease,
4. Infectious agents as inducer/promoter of autoimmune disease,
5. Differential diagnosis between either spontaneous or infection-induced flares in autoimmune disease.

Reviews, original researches, and communications focused
on microbial and autoimmune disease will be welcome.

Prof. Dr. Raffaele D'Amelio

Research, 04318 Leipzig,
Germany

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*Microbiology (medical)*)
