Message from the Guest Editor

Dear Colleagues,

In Asia, many researchers are devoted to the dissemination of new and original knowledge in all branches of analytical chemistry. In order to assemble these findings, a Special Issue entitled “Analytical Chemistry in Asia” is being launched. This Special Issue will present a high-quality collection comprising work from scientists in Asian countries. Both original research articles and comprehensive review papers are welcome.

This Special Issue will discuss new knowledge or cutting-edge developments in the field of Analytical chemistry, with the aim of expanding the current body of knowledge. This Issue is intended as a forum for the exchange of research findings and innovative ideas in the field.

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.
