Physical Sciences, University of
Technology Sydney, Ultimo, NSW
2007, Australia

Message from the Guest Editors

The MDPI journal *Molecules* welcomes contributions to the Special Issue entitled "Advanced Materials for Solar Energy". Articles are welcomed on materials research for solar energy applications, focusing, in particular, on solar cells, photocatalysis for applications in wastewater treatment, decomposition of pesticides, medicine, photochromism, thermochromism, and electrochromism, hybrid and composite bulk and nanosize materials, and theoretical and experimental methods of synthesis and characterization.

Deadline for manuscript
submissions:

closed (15 February 2021)

an Open Access Journal by MDPI

Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
