Neglected Diseases: Medicinal Chemistry and Natural Product Chemistry

Guest Editor:

Dr. Ronan Batista
Department of Organic Chemistry, Chemistry Institute, Federal University of Bahia, UFBA, Rua Barão de Geremoabo, s/n, Ondina 40170-115 Salvador, Bahia, Brazil

Deadline for manuscript submissions:
closed (30 June 2009)

Message from the Guest Editor

Aims:

This special issue will focus on the top-ten neglected diseases as defined by the World Health Organization:

- Human African Trypanosomiasis (HAT or sleeping sickness)
- Chagas disease
- Dengue
- Leishmaniasis
- Leprosy
- Lymphatic filariasis (Elephantiasis)
- Malaria
- Onchocerciasis (River Blindness)
- Schistosomiasis (Bilharzia)
- Tuberculosis

Special Issue

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt
Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.
Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
