Deadline for manuscript submissions: closed (31 December 2016)

Message from the Guest Editor
Dear Colleagues,

This Special Issue of *Molecules* deals with the structure-activity relationship of all natural compounds (animal and microbial toxins, antioxidants, anti-cancer, etc.) of interest in a wide range of areas (neurobiology, pharmacology, immunology, toxinology, toxicology, etc.), from basic research to the clinical applications. The molecules of different nature (peptides, proteins and organic compounds), size and functions—as well as molecular complexes—will be considered for publication. Submissions of manuscripts in the various fields of research and from all countries are strongly encouraged.

Dr. Jean-Marc Sabatier
Guest Editor

Author Benefits

- **Open Access**: free for readers, with publishing fees paid by authors or their institutions.
- **High visibility**: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed) and other databases.
- **Rapid publication**: manuscripts are peer-reviewed and a first decision provided to authors approximately 19 days after submission; acceptance to publication is undertaken in 6 days (median values for papers published in this journal in 2016).
- **Sections**: published in twelve topical sections.
