# **Zeolite Chemistry**

Guest Editor:

### Prof. Dr. Geoffrey L. Price

Wayne Banes Rumley Endowed Chair in Chemical Engineering Department of Chemical Engineering, University of Tulsa, 800 S. Tucker Drive, Tulsa, OK 74104, USA

Deadline for manuscript submissions:

closed (31 January 2015)

### Message from the Guest Editor

Dear Colleagues,

Zeolites are a class of industrially important materials. They have found utility in separations, water softening, and catalysis in particular. The high level of research into the field of zeolite chemistry indicates further potential for applications of these materials in the industrial sector.

Research articles in all areas of zeolite chemistry including synthesis, ion-exchange, structure, characterization, modification, and catalysis from both experimental and computational perspectives are encouraged. Articles focusing on either microporous or mesoporous materials are welcome.

Prof. Geoffrey L. Price *Guest Editor*

## **Message from the Editor-in-Chief**

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

#### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
