Deadline for manuscript submissions:

30 September 2024

# Message from the Guest Editor

Dear Colleagues,

Polyphenols are biologically active compounds found in a wide range of plant materials and are used in various pharmaceutical and cosmetic formulations. These compounds have various pharmacological effects, including antioxidant, anti-inflammatory, cognitive enhancement, anti-migraine and anti-cancer effects. Numerous studies have shown their strong positive activities in reducing inflammation, modulating immune response, and supporting and restoring the normal functions of cells.

In this Special Issue, we expect to see not traditional, but innovative extraction methods for polyphenols. It is also paramount to find methods to ensure the bioavailability and efficiency of phenolic compounds. This is usually ensured by various technological procedures. We therefore look forward to innovative technologies and possible new pharmacological effects of polyphenols for the future of pharmaceuticals.

## **Message from the Editor-in-Chief**

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
