Message from the Guest Editors

Dear Colleagues,

The Special Issue “Feature Papers: Emerging Processes, Analytics and Dosage Forms in Pharmaceutical Processing and Drug Delivery” will address new developments in pharmaceutical processing, such as continuous processing that is integrated with process analytical tools (PAT), and where possible, supported by Quality by Design (QbD). The Special Issue also deals with the latest approaches in novel analytical methods that would support the mechanistic evaluation of the materials and processes that would aid the smart design and development of dosage forms. Preference will be awarded to papers that demonstrate contributions from scientists that provide interdisciplinary approaches to understanding pharmaceutical processing and drug delivery. Original research papers and review articles are welcomed.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
