Pharmacy is an independent open access journal published by MDPI

www.mdpi.com

See www.mdpi.com/about/contact/ for a full list of offices and contact information. MDPI AG is a company registered in Basel, Switzerland, No. CH-270.3.014.334-3, whose registered office is at Klybeckstrasse 84, CH-4057 Basel, Switzerland.

Last updated: December 2014. Please check the journal website for the latest version of the flyer.
Aims & Scope

Pharmacy - A Journal of Pharmacy Education and Practice is an international scientific open access journal on pharmacy education and practice published by MDPI online quarterly.

The aim of Pharmacy is to disseminate Pharmacy and Healthcare related educational research. It publishes reviews, opinion articles, regular research papers, communications and short notes. Its topics include development of learning tools and assessment strategies, curriculum design for healthcare education, the impact of education policy on programme design, interprofessional learning, and supporting education across the health care community.

There are, in addition, unique features of this journal:

○ manuscripts regarding research proposals and research ideas will be particularly welcomed
○ computed data or files regarding the full details of the experimental procedure, if unable to be published in a regular way, can be deposited as supplementary material
○ we also accept manuscripts communicating to a broader audience with regard to research projects financed with public funds

Scope:
○ Assessment strategies
○ Curriculum design
○ Development of novel teaching strategies
○ Education policy
○ Health profession education
○ Interprofessional and multiprofessional learning
○ Work-based & clinical learning

Open Access. What does it really mean?

Open access is mainly a response to what is known as the serials crisis: yearly increasing journal subscription prices, which make subscription-based journals increasingly difficult to afford.

Many university libraries around the world have had to cancel existing subscriptions, or are unable to keep up with subscribing to new journals, because the cost of publication has risen disproportionately to their budgets.

With open access publishing, the cost of peer-review and production of an article is borne by the institute of the author by payment of a one-time flat fee. Conversely, readers and their institutes are no longer charged for accessing the journals they need.

For researchers, open access brings the convenience of immediate access to the literature that they need — no matter for which university or company they work, or whether they just want to read a paper in their spare time at home.

For authors, open access means a much wider circle of readers due to the easy access to their research papers. The interested general public is also able to access research works, giving higher transparency to the outcome of taxpayer money spent on research.

Publication Ethics Statement

Pharmacy is a member of the Committee on Publication Ethics (COPE). Pharmacy takes the responsibility to enforce a rigorous peer-review together with strict ethical policies and standards to ensure to add high quality scientific works to the field of scholarly publication.

Call for Papers

Dear Colleagues,

You are invited to contribute a research article or a comprehensive review for consideration and publication in Pharmacy (ISSN 2226-4787). Pharmacy, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. The first issue was released in 2013.

Manuscripts prepared in Microsoft Word or LaTeX can be submitted to the Editorial Office at www.mdpi.com. Detailed instructions for authors are also available online: www.mdpi.com/journal/pharmacyinstructions/

Pharmacy is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Pharmacy is a new journal and publication fees are fully waived for papers submitted in 2015. However, a fee of 250 CHF may apply for those articles that need major editing and formatting and/or English editing.

We would be pleased to welcome you as one of our authors.
