### Message from the Guest Editors

Dear Colleagues,

Polymer science is a continuously growing field, and it is expected to play a key role in the bioeconomy and circular economy. In Greece, the field of polymer science and technology is served by numerous researchers from various groups, working on polymer synthesis, polymer characterization, polymer physics, polymer theory, polymer physical chemistry, polymer engineering/technology, and polymer composites/nanocomposites, as well as in the design/development of added-value functional polymeric materials for emerging applications in all technological fields. After the success of the first Special Issue, "State-of-the-Art Polymer Science and Technology in Greece", this second Special Issue aspires to collect high-quality papers by Greek Scientists, covering all the subfields of polymer science and technology.

## Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q1 (*Polymer Science*) / CiteScore - Q1 (*Polymers and Plastics*)
