Yeungnam University College,
Daegu 42415, Republic of Korea

Deadline for manuscript
submissions:

25 July 2024

Message from the Guest Editor

Dear Colleagues,

Polymers are useful materials for biosensors and detection. Designing and preparing different polymers for biosensors can meet the needs of different biosensing and detection applications, and can achieve higher sensitivity, lower detection limits, wider linear detection ranges, more efficient electron transfer, and higher stability.

This Special Issue of *Polymers*, entitled “Polymers for Biosensors and Detection”, is open to research articles and reviews on the preparation and application of polymers for biosensors and detection.

Prof. Dr. Jong Min Lee

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien
und Polymertechnologie,
University of Potsdam, 14476
Potsdam-Golm, Germany

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (*Polymer Science*) / CiteScore - Q1 (*Polymers and Plastics*)
