Additive Manufacturing of Polymer Composites II

Guest Editor:

Dr. Matthew Blacklock

Department of Mechanical and Construction Engineering, Northumbria University, Newcastle upon Tyne, UK

Deadline for manuscript submissions:

20 January 2025

Message from the Guest Editor

Dear Colleagues,

We invite contributions to this Special Issue of Polymers on topics investigating all aspects of the additive manufacturing of polymer composites, including, but not limited to, material characterization, the analysis of failure, modelling and simulation, novel approaches to printing, and an examination of the printed composite design approach. The goal of this Special Issue is to increase the understanding of these novel material systems with the aim of increasing the performance and long-term viability of 3D-printed composites, which will lead to wide-scale adoption.

Dr. Matthew Blacklock Guest Editor

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (Polymers and Plastics)
