Deadline for manuscript  
submissions:

**31 October 2024**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue, titled "Advances in the Design, Analysis and Evaluation of Functional Foods", presents cutting-edge research on enhancing the development, analysis, and assessment of functional foods—products offering additional health benefits beyond basic nutrition. It delves into innovative approaches in ingredient selection, formulation techniques, and analytical methodologies to optimise functional food design and quality. It explores the identification and characterisation of bioactive compounds, evaluates their bioavailability, assesses their potential health effects and the possibility of their incorporation into functional food products, and addresses consumer preferences as well as market trends.

The topics of interest for this Special Issue, in particular, include (but are not restricted to) the following:

- Identification of bioactive compounds;
- New functional foods design;
- Influence of processing parameters on functional foods ;
- Health effects;
- Analysis and evaluation of functional foods;
- Consumer acceptance;
- Other aspects of functional foods.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Giancarlo Cravotto**

Technology, University of Turin,  
Via P. Giuria 9, 10125 Turin, Italy

## Message from the Editor-in-Chief

*Processes* (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
