Message from the Guest Editors

This Special Issue on "Green Separation and Purification Processes" seeks to cover the latest developments in environmentally friendly separation processes and technologies. Topics include, but are not limited to:

- Applications of green solvents;
- Green extraction and purification techniques;
- Combined and hybrid reaction/purification processes;
- Green sampling and sample preparation in analytical chemistry.

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.
