Chueire, 330 - Jardim Carvalho,
Ponta Grossa 84017-220, PR,
Brazil

Message from the Guest Editors

The submission of manuscripts involving novel technologies and new materials or mixtures of well-known processes are most welcome for this Special Issue. Topics include, but are not limited to:

- Novel adsorbents (mainly from low-added materials) and applications in synthetic effluents that are similar to natural ones;
- Novel membranes applied to industrial wastewater treatment;
- New coagulation and flocculation materials;
- Non-conventional oxidative processes;
- Integrated green technologies and a circular economy.

Deadline for manuscript
submissions:

15 June 2024

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
