Deadline for manuscript  
submissions:

**closed (31 May 2024)**

### **Message from the Guest Editors**

This Special Issue on “Membrane Separation for Wastewater Treatment and Recycling” seeks high-quality works which explore the latest novel advances in membrane technology for liquid separation. Topics include, but are not limited to, the following:

- The separation of pollutants (such as micropollutants and microplastics, emerging drugs, and pesticides) by membranes;
- The application of membrane technology for separation of metals from recycling and mining;
- The treatment of wastewater from electroplating;
- The separation of metals from industrial processes;
- Electrodialysis.

We gladly invite you to submit your work to this Special Issue.

Dr. Amilton Barbosa Botelho Junior  
Dr. Denise Croce Romano Espinosa

Technology, University of Turin,  
Via P. Giuria 9, 10125 Turin, Italy

## Message from the Editor-in-Chief

*Processes* (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
