

## Risk Assessment and System Safety in the Process Industry

Guest Editors:

### **Dr. Xinhong Li**

Centre for Pipeline Risk and  
Reliability Engineering (CPRRE),  
Department of Safety  
Engineering, Xi'an University of  
Architecture and Technology,  
Xi'an, China

### **Dr. Mingyang Yang**

Department of Safety  
Engineering, Xi'an University of  
Architecture and Technology,  
Xi'an, China

Deadline for manuscript  
submissions:

**15 July 2025**

### **Message from the Guest Editors**

This Special Issue pays particular attention to safety, risk and reliability in process industries, including theories, methods and engineering applications, to cope with the challenges of harsh environments, major accidents and new energy.

The potential topics include, but are not limited to, the following:

- Structural design method in harsh environments;
- Structural safety assessment of process facilities;
- Accident modeling in process operations;
- Risk identification, analysis, assessment;
- Emergency decision-making and management;
- Technical safety and loss prevention;
- Non-destructive detection technique for process facilities;
- Reliability assessment for process facilities;
- Transportation safety of emerging energy;
- Fault diagnostics and prognostics;
- Risk early warning;
- AI in safety and reliability;
- Resilience engineering.

Technology, University of Turin,  
Via P. Giuria 9, 10125 Turin, Italy

## Message from the Editor-in-Chief

You are invited to contribute either a research article or a comprehensive review for consideration and publication in *Processes* (ISSN 2227-9717). *Processes* is published in open access format – research articles, reviews, and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited, free access to the content. As an open access journal, *Processes* is supported by the authors and their institutes through the payment of article processing charges (APCs) for accepted papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** CiteScore - Q2 (Chemical Engineering (miscellaneous))
