

Advances in Adsorption of Wastewater Pollutants

Guest Editors:

Dr. Marwa El-Azazy

Dr. Saeed Al-Meer

Dr. Ahmed El-Shafie

Dr. Khalid Al-Saad

Deadline for manuscript
submissions:

31 July 2024

Message from the Guest Editors

Dear Colleagues,

With the rapid progress of human life, innumerable pollutants are threatening aquatic systems, with water pollution becoming a critical health and environmental issue. Thus, innovative and affordable solutions that could be used to remove these pollutants are crucial.

To that end, editors of this Special Issue are focusing on the development of innovative techniques that are adsorption-based for wastewater treatment. These novel solutions could comprise the utilization of unique materials for wastewater remediation, ecostructuring of a green approach via coupling to factorial designs, or any other relevant approach. The target pollutants include (but are not confined to) organics (pharmaceutically active compounds, personal care products, dyes, pesticides, etc.) and inorganics.

This Special Issue entitled “Advances in Adsorption of Wastewater Pollutants” seeks high-quality contributions. All types of papers are welcome: research, review articles and communications.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
